What's New At Noah's Ark?

Walk on the Wildside TOURS NOW OPEN!

We know you have missed seeing the animals (they have missed you too), so we are slowly reopening WOW Tours while we continue with our repairs and habitat maintenance.

WOW Tours are currently being scheduled on our website at www.noahs-ark.org

Liberty the Lioness and all the animals hope to see you soon!

Upgrades & Renovations!

A new bridge has been constructed where the creek eroded from flooding earlier this year, causing the old pathway to collapse. Concrete ramps still need to be put in place, but we are making progress! The damage to the other bridge is less severe (thankfully), but will still need a new support structure built to mitigate erosion and prevent complete collapse.

Dear cherished friends of Noah's Ark,

We write to you today with heartfelt gratitude and a sincere plea for your unwavering support.

As you know, our sanctuary relies solely on the generosity of compassionate individuals like you.

Without any city, state, or federal funding, we face significant challenges as we strive to continue providing the best care for our beloved animal residents.

At present, we are confronted with a pressing issue that requires urgent attention—the need to fell damaged trees within the habitats of our majestic predators. However, before we can embark on this critical mission, we must first install larger gates in each habitat to bring in the necessary equipment to make the process as quick and efficient as possible.

To tackle this challenge head-on, we humbly appeal for your support.

We need to raise \$10,000 to install the necessary gates and fencing, and an additional \$25,000 to cover the costs of felling over two dozen damaged trees.

We are also looking for companies who would be willing to help us at a discount, with opportunities for sponsorship available.

These funds are vital in creating a safe haven for our cherished animals, allowing them to thrive in a protected and nurturing environment.

In addition to our immediate concerns, our pathways have suffered as well. The relentless force of the spring flood caused severe eroding of the creek bed and damage to crossings. Although devastating, we are thrilled to share that we have managed to bridge this gap, providing a secure path for our staff and future visitors. Anchoring the bridge remains a priority, as does the final repairs and reinforcement of our other bridge that was damaged.

Many damaged benches still need to be repaired.

Asphalt pathways suffered damage from spring flooding.

Our hearts are filled with hope as we share these challenges with you, our pillars of support.

With tears of gratitude, we implore you to stand with us once again. Your contributions, no matter the size, hold immeasurable significance. They will enable us to install the vital gates, remove hazardous trees, repair crumbling asphalt walkways to ensure public safety, secure our bridges, and acquire a reliable Utility-Task-Vehicle for material transport.

Your dedication to the animals of Noah's Ark has been an unwavering source of strength and inspiration. It is because of you that Noah's Ark stands tall, a beacon of hope and compassion in a world that so desperately needs it.

As we progress in our repairs, we eagerly anticipate welcoming more visitors, allowing them to witness our improvements firsthand. Together, we can make a profound difference in the lives of our incredible animal residents. Your support will help us create a sanctuary where love, compassion, and protection flourish.

With profound appreciation and boundless love,

The Noah's Ark Family

CURRENT NEEDS

**IN NEED OF
UTV***

***In Good Working Condition**

Our keeper staff need **utility task vehicles (UTV) in good working condition** to aid in feeding our animals and transporting supplies from our holding sheds.

Our faithful companions, a 15-year-old golf cart and a worn-out 15-year-old Ford Focus station wagon, have served us well but are in desperate need of retirement.

Our hard working Patti-Wagon, a 15-year-old Ford Focus, has been a treasured member of the team, even when sticks are used to prop up her ailing parts.

We are beginning to run low on **Cosequin**, our much used joint supplement. We use it daily on all our aging cats and bears. We LOVE this stuff and know it helps the animals' achey joints tremendously. You can find this gift on our [AMAZON WISHLIST](#)
